Bibliomation / October 2012
ENHANCEMENTS

1. Cataloging

   “Edit Volumes” – Call Number Display
   Description: When you "edit volumes" from the item status screen, refresh the item status screen to show updated call number.

2. Checkout/Checkin

   View Holds in Check-In
   Description: By clicking on the item once it is checked in, an option for “View Holds” should be available from the “action” menu.

   Print Details of Single Checked Out Items
   Description: In Patron’s Item out screen the ability to print details of a single item with a new receipt template from the listing of items checked-out to a patron should be available.

   Mis-scanned Barcodes
   Description: In check-out: Any mis-scanned barcode should appear along with the message prompt asking if you want a pre-cat checkout or not.

3. Holds

   View Holds in Item Status
   Description: After scanning an item in Item Status, user can click on Actions for Selected Items and choose “View Holds.”

   View Holds from Patron Record
   Description: Be able to "view holds" for other patrons when placing a hold from the patron's record.
4. Notices / Reports

Alphabetize Parameters in Report Setup
**Description:** In the reports template setup, the parameter fields are not currently alphabetical, making it difficult to run reports.

Alphabetize Template Names in Listing
**Description:** The names of the individual report templates are also not listed alphabetically.

5. Patrons

Patron Blocking by Number of Lost Items
**Description:** Have a group penalty threshold for lost items.

Include Lost, Claimed Returned, and Long Overdue as Items Out
**Description:** Make lost, claimed returned, and long overdue items stay on patron’s card as “checked out” (count towards total of items out) and also appear in the fine/bill area.

Patron Record-"See Notes" Clickable
**Description:** On the patron record, make the (See Notes) clickable, bringing you directly to the notes. From the patron search, this should not be clickable.

6. Searching

My Lists
**Description:** Improve the My List feature by adding call number to each item saved to the list.

Highlight Search Terms
**Description:** Highlight search terms in search results.
